

Hey! My name is _____
and I am your neighbor at the address

and my number is _____.

I'm reaching out because I know that COVID-19 or Coronavirus is spreading in our area, and I want to be connected with you and our other neighbors so we can stay in touch, pool resources, and support each other with any needs that may come up. I am going to coordinate a group text message thread or phone tree so we can be in communication. Please text me when you get this if you would like to be part of this network. If you prefer not to communicate via text, give me a call and we can talk that way!
